

# TECHNICAL TRAINING LLC. - HIGH VOLTAGE QUALIFIED ELECTRICAL SAFETY AND ARC FLASH TRAINING

## 8 HOURS

Working on or around 1 to 138kV industrial high voltage distribution systems requires qualification. In this training, attendees learn what it means to be HV qualified and what electrical tasks may only be performed by a qualified person.

## FEE FOR ONSITE TRAINING

\$3,500 for first day of training, \$2500 for each additional day. Local rates and volume rates available.

Includes 8 hours of training for up to 20 attendees, and instructor travel to US locations.

Additional \$40 per person for the e-Hazard workbook. Prerequisite LV Qualified Training.

## DATES

Call 812-677-2845 for scheduling.

## WHAT YOU'LL LEARN

- Regulations related to being HV - Qualified and working safely.
- Safe practices working on or near energized equipment.
- Live line work, tools & equipment.
- Mobile equipment & electrical hazards
- De-energized testing.
- Creating a safe work zone (Tape in/Tape out).
- Public safety (limited approach) boundaries.
- Minimum Approach Distance.
- When is it live-line work.
- What tasks do not require a live-line permit.
- Testing and verifying equipment is de-energized.
- Why you must ground.
- Field testing requirements.
- Demonstrate your proficiency of HV skills for our engineer/lineman.

## WHO SHOULD ATTEND

- Safety Engineers
- Supervisors
- Electricians
- Electrical Engineers

## CERTIFIED FOR CONTINUING EDUCATION WITH:

- IAEI and NETA
